Mediseller SIM Lines: Final Verdict

Status as of 2 Nov 2026. Combines three sources: SIM_Audit_Calls.xlsx (208 call logs), LINE_CONTROL_REPORT 2026-11-02 (203 WhatsApp message rows) and SIM_Audit_Report.md. 92 numbers in total.
Incoming = a person answered our call and spoke. **Outgoing** = the SIM called 94293 99495. **WhatsApp** = 31 Oct delivery receipt (replied / read / delivered, or the number is a Chatwoot WhatsApp Business API inbox).

Tier	Verdict	Meaning	Count
A	**Fully active**	Incoming + outgoing + WhatsApp all proven	16
B	**Calls active, no WhatsApp**	Incoming + outgoing proven; WhatsApp not working	2
C	**WhatsApp OK, one call direction**	WhatsApp working + one call direction proven	27
D	**Incoming only, no WhatsApp**	Person answered; no callback; WhatsApp not working / not checked	13
E	**Connected but silent**	Call connected, nobody spoke, no callback	5
F	**Calls dead, WhatsApp alive**	Never answered / called back, but WhatsApp working	14
G	**Dead on all checks**	Never answered, never called back, WhatsApp not working	12
H	**Not testable**	SIM serial (ICCID) only, no phone number	3
	Total		**92**

Notes: (1) WhatsApp working does not prove the SIM is in a phone: WhatsApp keeps running over Wi-Fi after the SIM is removed, and Chatwoot API inboxes need no phone. Tier F numbers need a physical check. (2) "Account exists, not reachable" was the state on 31 Oct around 13:30 (Meta error 131026, or the message was sent but never delivered). (3) Holder / POC names are not used.
